

Animale Rankoshi

The gateway to Nature.

The first petting zoo in NISEKO area

Animale Rankoshi, a mobile petting zoo, opened in July 2024. Its unique feature is that you can spend a relaxing time interacting with animals that you cannot touch at a zoo. During normal business hours, we take reservations to avoid overlapping with other customers as much as possible, so you can spend almost all of your time privately. We also offer a "completely private plan" that includes a buffer time to avoid overlapping with other customers.

PRICES < 1 hour limited > tax inc.

SUMMER	WINTER
adult ¥2,200	adult ¥3,300
under 15yo ¥500	under 15yo ¥1,100
under 3yo FREE	under 3yo FREE

For businesses

『Mobile Petting Zoo Plan』

We will bring the animal members of Animale Rankoshi to hotels and event venues to hold a petting zoo.

PRICE ¥165,000-
tax inc.
Winter event conditions

- The location must be indoors or somewhere where it is reliably warm.
- We will cover the animal waste with carpets or sheets to avoid making a mess as much as possible.
- The location must be somewhere where animal noises will not be a nuisance.
- The location must NOT be somewhere with loud noises, music or other disturbances.

We are Animale Rankoshi!

*When the mobile petting zoo is in operation, 5 or 6 species will be selected from the above.

Animale Rankoshi's Goals

1. The first step towards environmental issues

Interacting with living creatures is an opportunity to become aware of the environmental issues around you!

2. Bird show in nature

Taking advantage of the director's expertise in bird training, a bird show will be held in the vast Hokkaido natural environment!

3. Environmental Education

We will provide environmental education to children through the experience with encounter with animals.

Zoo director's talking to herself

Environmental issues are currently a problem in many places. Even in Hokkaido, a place rich in nature, there are many living creatures to mention, such as raccoons, deer, bears, and birds of prey. However, there are people who do not know what to do. Therefore, through our currently most widely used Environmental Education Program, Project Wild, we hope to deliver environmental education to a wide range of age groups in an easy-to-understand, fun, and physical way. As a first step, we would like you to have fun at Animale Rankoshi and feel the presence of life.

Kanami Takahashi
Director of Animale Rankoshi
